

Student Support

We understand that leaving home and studying abroad can present challenges so we provide a comprehensive package of services to help students from the time they arrive in the UK to the time they leave to go home.

The International Centre is situated centrally within Guildford College where our English language classes take place. **International staff are available to help and assist you in every way** they can to ensure your stay in the UK is a safe and happy time. Also available to international students is a **24 hour emergency telephone**.

We can give course advice and guidance, arrange airport transfers and host family accommodation, give supporting documents to enable you to open a bank account and register with the Police and doctor.

Guildford College encourages all students to participate and contribute to the life of the College and hosts an annual Student Voices Conference to enable you to have your say!

All students are supported by their tutors who will help you in developing your academic, professional and personal skills so that you are able to do your best on your chosen course. You see your tutor for group tutorials and on a regular one-to-one basis when you will create targets to help you to achieve your goals.

Students from all faiths and cultures are welcomed by Guildford College. The Retreat is a dedicated room for prayer and reflection.
